重点 0: 作文的地位远远没有想象的大, 它只是为写作贡献分数的 6 类题型之一。

重点 1: 只有 20 分钟, 切记不要浪费过多时间思考用什么观点“最好”, 思考论点最多用 2 分钟。想不出来怎么回答也赶快把模板敲出来。时间不等人。

重点 2: 推荐使用填句模板, 比填词模板更普适不同题目要求。碰到两篇作文时, 就用同一套模板, 也无所谓。填词模板只是一个补充选择。

重点 3: 填句模板中, 每一空是 1 个简单句, 或 2 个用“ , and ”连接的简单句。简单句: 主谓宾、主系表、主谓。

重点 4: 模板中已经用了各种主句、从句结构, 所以在填句子时, 最多加上定状补, 不要从句套从句, 避免自己控制不住句型出现错误, 同时避免计算机误判。

重点 5: 别逞能, 只用确定会拼的单词, 稳就行了。

重点 6: 每个空达到 8~9 个单词能保证全文达到 200 字。

重点 7: 写多不代表分数就高。水平高你随便写无所谓, 水平不济的同学写多错多。

重点 8: 例子无所谓真实与否, 计算机不会去上网查。例如大学名随便写一个即可。

重点 9: 站边的题目例如 agree/disagree 题型, 无需正反论证。问优缺点的例如 advantage/disadvantage 题型需要替换第三段中开始为 However

重点 10: 中国人常见错误: 主谓搭配不当、动宾搭配不当、时态、单复数、冠词、介词.....

范文:

Essay topic: Some people believe law changes human behaviour. To what extent do you agree or disagree?

It has become far more widespread these days that law changes human behaviour. While some people argue that law only prevents crime from happening, I believe that law definitely has a lot of positive effects on human behaviour.

To begin with, we have to acknowledge that human behaviour is highly social, and it is restrained by regulations and laws. That is to say, laws are made to regulate human behaviour. A relevant example of this is that children behave better if their parents give them rules. Therefore, it is beyond the shadow of a doubt that law changes human behaviour no matter how old they are.

What is more, another point to be taken into consideration is that law gives people a clear picture of what not to do. In other words, laws can protect people from their own stupidity. The recent research conducted by the professors at Adrian University shows that 45% of the whole human race can not think for themselves. Therefore, it is undoubted that people need laws and regulations to lead better lives.

In conclusion, while there are strong arguments on both sides of the case, I firmly believe that law changes human behaviour, and it surely is a good thing.

范文:

Essay topic: Some people believe law changes human behaviour. To what extent do you agree or disagree?

Nowadays, whether law changes human behaviour has been a heated debate and drawn attention from the public. While some people believe that law can change human behaviour, others hold the view that there is no relationship between law and human behaviour. In my opinion, law does have an influence on human behaviour due to social and psychological reasons.

First and foremost, it has been argued that the social reason is why I think law has an influence on human behaviour. Although potentially negative impacts of law must be taken into account, I still reckon that the existence of law has in many ways enormously forced people to abide by them. For example, a well known American philosopher once said, "People are generally afraid of receiving any form of legal punishment." It is thus clearly shown that human behaviour is changed by law.

In addition, another factor that should be considered is the psychological reason. People are obliged to comply with the given laws because they are in fear of having to take legal responsibility. For instance, a recent research published by The Economist reveals that 80% of people fasten their seatbelts in cars after a traffic law has been published. Undoubtedly, this is a clear indication that law has a positive impact on individuals' behaviour.

In conclusion, I hold the view that law changes human behaviour. To address this issue, the government and society should make a concerted effort to restrict human behaviour.
